## TECHNICAL NOTE: WRB COATINGS AND ROOF UNDERLAYMENTS APPLIED TO LP® FLAMEBLOCK® FIRE-RATED SHEATHING

Some water-resistive coatings and roof underlayments may be used in conjunction with LP® FlameBlock® Fire-Rated Sheathing. In general, most coatings and underlayments designed for masonry, concrete, or gypsum surfaces are chemically compatible with the Pyrotite® surface of LP FlameBlock Fire-Rated OSB. The LP FlameBlock sheathing should be cleaned of all residue, dust, dirt, and loose particles prior to commencing application.

The following products have been evaluated and demonstrated chemical compatibility with LP FlameBlock sheathing by the manufacturers. For detailed application procedures, please follow the manufacturers instructions. Consult the manufacturer should additional confirmation be required regarding adhesion properties onto LP FlameBlock Fire-Rated OSB.

	GRACE	DRYVIT	HENRY	DUPONT
Air-Shield® LMP	Perm-A-Barrier® VP	Backstop® NT™	Air Barriers:	Tyvek® Fluid Applied WB
