

## **Product Usage Bulletin #1000-06**

### **Perfect Barrier's BLUWOOD Coating on LP Engineered Wood Products**

Louisiana-Pacific Corporation has been asked to confirm whether the limited lifetime warranty provided on LP Engineered Wood Products would be honored if our products are treated with Perfect Barrier's BluWood™ product.

Perfect Barrier's BluWood promotional materials confirm that their process involves a topical application and state that the application has no negative impact on the structural strength or other properties of wood. While we have no reason to doubt these claims, LP has not tested BluWood treated products to verify the claims. As a result we are not able to endorse Perfect Barrier's BluWood product or honor any claims arising from application of BluWood to LP Engineered Wood Products at this time.

LP will honor warranty claims on BluWood treated LP products which arise solely from manufacturing defects if the LP products are transported, stored and used in accordance with our installation instructions.
